01

WHO WE ARE

Beacon Capital is an Egyptian company specialized in natural stone solutions, focused on supplying premium marble and granite for local and international projects. We combine market expertise, reliable sourcing, and project-oriented service to support contractors, developers, importers, and business partners.

Our work covers material supply, custom cut-to-size production, project support, and export coordination – with strong attention to quality, specifications, and professional communication throughout every stage.

WHY CHOOSE US

We combine sourcing strength, production flexibility, and export-ready execution to support natural stone projects with confidence.

1. Factory Support

Strong factory coordination to support production planning, material availability, and project requirements.

2. Custom Sizes

Cut-to-size supply tailored to project drawings, dimensions, and application needs.

3. Quality Control

Attention to material selection, finishing consistency, and specification compliance throughout production.

4. Export Packaging

Professional wooden crate packing and shipment preparation designed for safe international delivery.

5. Competitive Pricing

Cost-effective solutions supported by reliable sourcing and practical project-focused pricing.

6. Project Experience

Experience supporting project supply for flooring, stairs, cladding, facades, countertops, and export orders.
